Ebrahim Ngus

FullStack Software Developer

Addis Ababa, Ethiopia • +251-977-583-279 • [Email](#) • [Linkedin](#) • [Github](#) • [Portfolio](#)

Experiences

I am a self-taught **Full-Stack Developer** and **UI/UX Designer**. I've built and designed multiple web applications from scratch, blending user-centric design with functional, scalable code.

Projects

Food Deliverey – Full Stack Web • [Github](#)

● Developed a full-stack food delivery app using the MERN stack (MongoDB, Express, React, Node.js).
● Implemented secure user authentication with JWT and b crypt for login/signup.
● Integrated real-time order tracking and cart management using Redux and socket.io.
● Built RESTful APIs for products, orders, users, and payments with Express and MongoDB.

Netflix Clone – Full Stack Web • [Github](#)

● Developed a full-stack Netflix clone with Firebase for authentication, real-time database, and hosting.
● Implemented secure user login, signup, and logout features using Firebase Auth and Firestore.
● Fetched dynamic movie data via TMDB API and designed a responsive UI in React.
● Users can browse, save, and stream movies in a clean Netflix-style interface.

YouTube Clone – React App • [Github](#)

● Built a fully responsive YouTube clone using React and RapidAPI for video data.
● Implemented search, video playback, and channel navigation for an authentic YouTube experience..
● Designed a modern UI with React Router and Material UI for seamless navigation and playback.
● Focused on performance and user experience, including loading states and reusable components.

Nike Brand - React App   • [Github](#)

● Designed and developed a visually engaging landing page for Nike shoes using Tailwind CSS..
● Emphasized modern design with responsive layouts, bold typography, and hover animations..
● Ensured the page is fully mobile-responsive and aligned with Nike's brand aesthetic.

Education

FreecodeCamp, 1/2024 – 5/2024   Responsive Web Design • [Certificate](#)
Udacity, 5/2024 – 6/2024   Programming Fundamentals • [Certificate](#)
Udemy, 10/2023 – 5/2024   The Complete Front End (HTML, CSS ,Javascript) Course.
Addis Ababa University, AAU, 09/2020 – Present Bachelor's degree — Civil Engineering.

Skillls

Technical Skills

UI/UX designer： Figma

Front End Development : HTML, CSS, Tailwind, Bootstrap, Javascript, React

Back End Development : Node, Express, Mongodb, Firebase

Soft Skills

Prioritization, Time Management, Communication, Adaptability, Team Work
